[Fabolous]

you had me stuck off the realness, fearless  
That head was sick, I call that mental illness  
Maybe I'm crazy, singing to myself  
Lookin in the mirror pointin fingers at myself  
It was you, livin off me  
Smokin loud, speakin softly  
Now I'm the car singin off key like  
IM JUST SAYIN YOU COULD DO BETTER  
I'm heated, I can't say that I'm chillin  
Ain't feelin what you say, if you Dnt say what you feelin  
Now, take the words back and think 'em through  
Them songs on the radio might be about you

[Cassie]

why am I thinking of you  
after all you've done  
Why's my heart fighting for you,  
when my mind wants you gone  
Held n for to long. Oh oh oh  
I heard it before, I'm singing the same old story now

[hook]

That I use to hear from SWV & en vogue  
Mary J blige all wrote a song about you.  
It seems that your old news  
And now I wrote one too.  
I should've learned About guys like you

[Chorus]

on the radio  
When the DJ use to play what I thought was my favorite  
song  
Who knew that they were tryna tell me about you  
And the crazy things you do  
How could you be so cruel  
Now I wrote a song that's on the radio  
And I'm sure that this will be some girls favorite song  
I hope she knows I'm tryna tell her about you

And the crazy things you do  
I know he don't seem that cruel

That you could learn from the songs on the radio

[Cassie]

now I'm sitting here  
Listening to all those old songs  
crazy they talkin bout you  
When I just sing along  
How did I go wrong, oh oh oh  
They gave me the sign,  
but I didn't listen to em. No

[hook]

To ask the DJ how soon will be the next song  
But I cannot expect you to play what I like
