Not hard to prove
Both eyes closed
roof high rise
Take that ride and I'll be right behind ya'
And if love forms, why hesitate at all
I cut that rope, Para-shoot gone
Love is jumping off a bridge and I'm going right behind
ya'

There's only one way to go and it's not that way running
from Love isn't it, now we've gone into Love head first
time with you-ah you-ah

Risk taker just kiss me now
Forget later, skydiver
Come down baby my sky diver
I'll go High up
Just to find ya and I'll fall wit ya' skydiver
My skydiver , I'll fall if you say fall (fall fall x4)
Fall if you say

And I move through you too
Mile high drive words get lost full speed love and I'm
falling right behind ya
Crash land, as hard as we can
Whole world shook, we don't care
Walk away from everything am going right behind ya'

There's only one way to go and it's not that way running
from Love isn't it, now we've gone into Love head first
time with you-ah you-ah

Risk taker just kiss me now
Forget later, skydiver
Come down baby my sky diver
I'll go High up
Just to find ya and I'll fall wit ya' skydiver
My skydiver , I'll fall if you say fall (fall fall x4)
Fall if you say

No I'm not afraid of hitting the ground

Baby if you wanna go down, I'm down yea (I'm down,
I'm down yea)
You know your love is really pulling me down
But I'm not afraid of hitting the ground
I'm down, I'm down yea (I'm down I'm down yea)

Risk taker just kiss me now
Forget later, skydiver
Come down baby my sky diver
I'll go High up
Just to find ya and I'll fall wit ya' skydiver
My skydiver , I'll fall if you say fall (fall fall x4)
Fall if you say
