

Cassie "Sometimes"

Visit "[Sometimes](#)" on MotoLyrics.com

VERSE 1

Lately...

I wish I could know the thoughts in your mind

(Yeah)

'Cause lately...

Feels as though you only want me sometimes

B-SECTION

My insecurity

Is takin' over me

I need to know where we stand

Is this a symptom of

Us fallin' out of love

What happened to the romance?

HOOK

Thought I was your only one

I came second to none

I wish I didn't love you so much sometimes

(Then I wouldn't be mad)

Then I wouldn't be so mad

About what I thought we had

I wish I didn't love you so much sometimes

VERSE 2

Lately...

It's so hard to understand you sometimes

(Sometimes...)

(Just Don't Understand)

And lately...

You make me feel so demanding sometimes

(Soo demanding sometimes)

B-SECTION

My insecurity

Is takin' over me

I need to know where we stand

I loved you all along

Tell me what I did wrong

What happened to the romance?

HOOK

Thought I was your only one
I came second to none
I wish I didn't love you so much sometimes

(Maybe then I)
Then I wouldn't be so mad
(Wouldn't be so mad)
'Bout what I thought we had
(Said I wish I)
I wish I didn't love you so much sometimes

RAP
Now how you gon' blame me
Told you this once before
I'm an international hustler - entrepreneur
I fly coast to coast make hits with stars
And I brought the cake home said this was ours
Now we argue and such
We lost the touch
Spent a week over your mom's
'Cause your heart was crushed
You don't like my lifestyle - say I work too much
Only thing I ever thought about first was us
Come on...

VAMP
Oh and baby I can't believe you
Don't see how much I need you
Wish I could leave you
(Some Some Sometimes)
Oh and baby I can't believe you
Don't see how much I need you
Wish I could leave you
Wish I could leave sometimes

HOOK
Thought I was your only one
I came second to none
I wish I didn't love you so much sometimes
(I dont wanna be foolish in love)
Then I wouldn't be so mad
(Ooo No)
'Bout what I thought we had
I wish I didn't love you so much sometimes
(Continued Ad-lib)
