Eye Water by Cassius

They call the planet Earth "Tears, eye water"

They call the planet Earth "Fear, eye water"

Such a waste of clear eye water

Such a waste of real eye water

Noone uses energy savers

Car emissions kill ozon layers

Look at your life now

Little children say their prayers

but the grown-ups don't say theirs

Look at your life now

When they first went to the moon

beyond the moon didn't they see

there wasn't anything they couldn't do

there wasn't anything they couldn't be

They discovered nuclear power

not for the best but for the worst

Revelations warned you first

They call the planet Earth "Tears, eye water"

They call the planet Earth "Fear, eye water"

Such a waste of clear eye water

Such a waste of real eye water

First your living was so simple

there was no gas, oil or rentals

look at your life now

then technology would teach you

that it's robots replace people

look at your life now

See when they first went to the moon

Beyond the moon didn't they see

There wasn't anything they couldn't do

There wasn't anything they couldn't be

They discovered nuclear power

It burnt them far below their shirts

It got so hot it almost burst

They call the planet Earth "Tears, eye water"

They call the planet Earth "fear, eye water"  
Such a waste of clear eye water  
Such a waste of real eye water

All the Christians, Muslims, Jews  
kill each other, they're so confused  
Look at your life now  
From light to dark, big to small  
they didn't know God loved them all  
Look at your life now

When they first went to the moon  
beyond the moon didn't they see  
there wasn't anything they couldn't do  
there wasn't anything they couldn't be  
They discovered nuclear power  
As if to fulfill the dues they curse  
for what happens next, my heart hurts (oh)

They call the planet Earth "Tears, eye water"  
They call the planet Earth "fear, eye water"  
Such a waste of clear eye water  
Such a waste of real eye water

(Whoaw)  
(No, no no, no no)

They call the planet Earth (planet Earth, planet Earth)  
(No, no no no)  
They call the planet Earth (planet Earth, planet Earth)
