Silent flow my tears  
On face of ashen time  
'Cause you're leaving on the paths  
Of happiness and gentle innocence  
And I abide to stand  
As statue of past  
Between foreign views  
And pale forgotten avidity  
Don't be frightened to tread  
Through gloomy forests  
'Cause once in them I've slept  
Prosperity and shine I've dreamed

...with ashes strewed paths vanish in infinity  
Petals of once red now black rose are dying  
On Earth in which darkness I am born  
To obey these weeping waves of darkly seas  
To attend howling of wolves in mist  
And whispers of blackwinds from Carpatia.

But deep inside myself I knew  
That my instant will not come  
'Cause I am the silhouette of sorrow  
And reality which disappears within night  
Don't be afraid of ominous shadows  
'Cause once with them I have danced

And learn secret of quiet pain  
In coldness on my hands you can feel  
In eyes of mine evilness you can see  
Suffering and agony will always remain

Orgy, vine, masturbation  
Below monolith of god  
Redemption and starvation  
From the wolves embraced lamb

She enchants me... petrifies  
Azure turns to crimson skies  
I stay stoned with ghostly eyes  
To watch my angel's flight

I am rebelled shadow  
Upon the light  
Abomination bathed  
In blasphemic mouth

"Through me you pass  
Into the city of woe:  
Through me you pass  
Into eternal pain:  
Through me among  
The people lost for aye...  
Before me things  
Create were none, save things  
Eternal, and eternal I endure.  
All hope abandon, ye who enter here".

Moisture and obscurity enclose me  
Magnificent moonlight illuminated me  
Poisoned words to me are assigned  
Soul of mine is infected with lust  
I'm asleep and dream your embrace  
Your sweet lips I feel  
And pray gods to wait  
'Cause I never want to wake up

Your name winds will whisper  
Till on them I ride  
And your heart will moan the same  
In eternal love we fall  
On the wings of dark angel  
Tardily I begin to melt  
For the kiss of dark angel  
I expire my final breath.
