Excuse me mister got a little story that I'd like to share  
Hey little sister you're so lonely oh if only you could  
hear me yeah  
I found a love that's never gonna let you down (go)  
Been a long, been a long, long time since someone's  
shown love for me  
It's all about love and I want you to know  
Sweet words of love can you hear them baby  
Nothing compares this love will never let you go away

So tell me brother lost your lover to another  
And you can't seem to bear the thought  
Oh how you've fought for a reason to live  
Days of joy are few and far between  
Been a long, been a long, long time since someone's  
shown love for me  
Been a long time, someone show love for me  
CHORUS  
Sweet words of love (3x)  
Nothing compares this love will never let you go
