Life was a roller coaster ride, pushin' me up down side
to side

I could barely hold on spinnin' out of control

I was lost, lost like a ship in the deep blue sea

Like an angel of light You came to rescue me

You must have found something special in me

Your love's done something to me

Changed my life completely

You're everything, the one and only thing that I need

Everyday I'm walking on sunshine

I am Yours and You're mine

Tonight I feel like I'm on top of the world

As I soar through the starry sky across the galaxy

On the wings of Your love forever carrying me

I've only begun, there's so much more to see

Lock me up throw away the key

I'm a prisoner of love but I never felt so free

You've given me more than I ever dreamed

CHORUS

I've always felt there had to be something more

Worth livin' and dying for, now I know that something is

You

This is how life was meant to be

Just having You here with me, with You just You

together forevermore

Life was a roller coaster ride pushin' me up down side

to side

I could barely hold on spinnin' out of control
