Do we hear the moon rise?  
No, we see just flies  
Shining light of the Eye  
Wants you all to die

Lying on the star stream  
Do loose an inner scream  
Flame across the path  
No fear in aftermath

Galaxies being twisted  
Planets deeply misted  
What is here to investigate?  
Who is here to dominate?

No or less speech ability  
That is the sound of inevitability  
Connected to the brain  
The energy in drain

A field of dots in heavens  
Reminding group of ravens  
Is glowing through your essence  
Of stain blooded presence

Warm eliminates  
Cold creates  
The visions are too soft  
For ears do not involved

Swarming flowing mass  
Greens all around like grass  
A star way leads into the space  
Of insane speed is all this race

Arms and legs in whirling shock  
Eyebrows still don't even rock  
This journey, not everlasting  
And your dream is blasting

Fantasy is yet locked up  
Wake up! Wake up!
