Bloodthirsty pleasures fulfilled  
By lecherous act in wood  
My eyes lust for thee  
To touch your breast below moon  
Devouring impulse wishes grace  
While trees sway and throw thrill  
My veins bleed for you to drain them  
In this crepuscular eve

She is now my bride

Inquisitive she beholds  
Lightness and darkness clash  
In burial-case I suffered her death  
And felt the burnt flesh  
Magnificence she wanted to see  
Her desire and agony  
Beautiful now she falls asleep  
Entwined in ebony

Bizarre fear in these chambers of filth  
By rising sunlight we shall feel  
Benighted shadows - bemoan wolves  
It seems they wilt  
For something that once we have lost  
"HER INNOCENCE"... dark is my will...

She will always be  
Within my plagued eyes  
Inside elysian waived weeping sky  
Ghosts and wraiths moan  
Serenade of night

Beloved Mirna - Angelic flight  
Behind the mask of dusk  
Sunrise she scorns  
Queen of lycantrophy, moonlight and woe

Farewell my princess  
Light endowed to thee dress of dawn  
Our love must die in midnight sins  
We are torn asunder by his sunrising crown

Dulcet lips I will never again kiss  
Below cobwebly entwined breeze  
With darkness enclosed on thy sea and shore  
I shall love you eternally... forever more...

Winter quietly knits nuptial dress of snow  
And wakes up lust written in sand  
Awhile my pupils red glow  
In black heart of night I am condemned

On her dead lips  
I am laying down the petals of a rose  
And releasing from the shores of my heaven  
Where angel cries  
In dark winterskies  
Forever...  
She shall breathe in each fall  
As I walk through them.

My eyes are living ember  
Which is weeping upon her soul  
In this land of cobweb  
Love will never again grow  
Winter is bringing gentle touch of princess hand  
Dolorous... in eyrie  
Immortal there I stand

Fallen bride is all that I see  
She shall come to plug-out the pain  
Enthralled with beauty in her swirl... again  
As winter whispers I remain

This nocturnal art  
Is yet undone  
Waiting for innocence  
To enter and run  
Through our woods  
Of this nature unbound  
Drained flesh  
Rising sunlight shall find  
Behind blue hell  
Black candles we hold  
Those who desecrate our kingdom  
Dark shall enfold...

Push away me from their cliff  
On shores of emptiness  
Again we shall arise within  
Asleepen waves and veins of thee

Together we shall awake within  
Asleepen waves and veins of thee
