Who dared to create this destructive place?  
Where wolves cry in lack of sheep

Planet, constantly draining to madness  
People, making gods just to betray them

Perversities, veiled under simplicity  
As their angels forgive the rape  
I wish my home were abyss  
With no emotions hurt to gamble

With no smiles hiding the killjoy  
But with infinite heavenly silence

Ageless are not ideas, but greed  
Uncountable not stars, but poisoned ones  
Immeasurable not mind, but stupidity  
Untrue not lies, but revelations

All around is consuming debris  
Praising innocence as a clown  
Wearing cover but not a content  
(If there might be content...)

This is a world of masks  
Necessary to veil the emptiness  
None will give a fuck  
When you wish to change it!

Here you cannot say for sure  
What is black and what is white  
Light and darkness are integrated  
All colors are mixed in one big mayhem

Swarming mass of worms and clones  
Producing only shit and swimming in it  
What a nice masterpiece!  
Why don't we name it paradise?

Don't Make Me God! [x4]

Eden on Earth is everywhere

As world is such a miraculous cunt!  
I wish I was fucking god to blow it all up!
