Born in the times of corruption & greed  
Where life lost its sense and people are weak  
Killing each other for a piece of power  
They're condemned and sentenced to suffer

Is it a generation of fools?  
No way for radical improves  
Brains are washed so perfectly  
Nobody sees the striking discrepancy

Every truth has a small part of lie  
And every lie has a small part of truth  
We live in a world of deceit  
Where no one can live without this false shit

People are trying to sell their souls  
For a bullshit called "money of fools"  
Look behind the walls of deception  
See your life in other approximation

World of lies  
Hear the cries  
Dying minds  
Of bleeding hearts

Feel the pain  
The perfect disdain  
Your mind tries to reach  
A superior aim

No one accepts  
Others attack  
Only the strong survives  
In this unbelievably hard life

Narrow-minded mass of fools  
Leads us to self-annihilation for sure

Terror of minds everywhere  
Myopic visions, total despair  
Devotion is lost forever  
Collapse is near, be clever

Return your talent of thinking  
To the level it belongs  
Ignore all kinds of pressure  
Be the one who never fall

The wisdom you want to reach  
By exploring fields of science  
Never to be achieved  
Without the iron will & fire in your heart
