Here I lie, bitter and cold,
Watch this drink take over my soul,
Tonight is the night, I finally do what's right for me,
And what's that I hear?
An angel singing for all those behind the wheel,
Save your breath this year.

You were all that I wanted,
But I'm not strong enough,
You can tell me that the stars won't lie to me,
It's just you I don't trust,
And it goes on and on and on,
You can tell me that the stars won't lie to me,
It's just you I don't trust.

This whole town's looking straight at you,
But they don't know what I do,
Black out on the city streets below
Lights out, we shine.

And I know we're no better at excuses than apologies,
And I'll keep on running until the sky falls down on me.
