This is thee sound of an army in rage  
The kids are taking over the streets again  
The sound of broken bottles in the night, intense fright  
Look out the punx are back, the crew is out tonight

Attack, Attack the crew is out again  
(It's a nightmare x3)

No more preaching for the kids of today  
The youth are unemployed and full of hate  
Drinking fucking beer until daylight breaks  
You can see the anger in their fucking faces  
Angry fucking kids, urban youth of today  
The system fucked them up, in their eyes you see hate  
Sound of broken bottles in the night intense fright  
Look out the punx are back, the crew is out tonight

Attack, Attack the crew is out again  
(It's a nightmare x3)

This is the sound of an army enraged  
The kids are taking over the streets again  
Another rebel youth is on the make  
Your not street smart, you'll never understand  
Chaos is the rule for the youth of today  
Drinking 40 ounces in the dark alley ways  
Sound of broken bottles in the night intense fright  
Look out the punx are back, the crew is out tonight

Attack, Attack, the crew is out again  
(It's a nightmare x3)

This is thee sound of an army in rage  
The kids are taking over the streets again  
The sound of broken bottles in the night, intense fright  
Look out the punx are back, the crew is out tonight

Attack, Attack the crew is out again  
(It's a nightmare x7)
