All you hypocrites out there always
Telling fucking lies
Always Talking behind my back
Every fucking chance you get
Two Faced - I know your name
Two Faced - I know your game
Two Faced - I know your kind
Two Faced - You're Full of Shit
You're a two faced cunt

So you're coming once again
Telling lies to all my friends
Always telling bullshit lies
Every fucking chance you get

So you do it one more time
Spreading rumors and spreading lies
Always telling bullshit lies
Every fucking chance you can.
