Multitude of aspects of every being  
Of carnal or of transcendental  
Multiplicity of prisms is attributed to everything  
But the Universe is a Unity

Ages ago the Noble men  
Lived in harmony with Nature  
Which is far from false divisions  
For the Universe is a Unity

False prophets from the East  
Have torn the Day away from the Night  
They have created good and evil

When the Universe is a Unity

Body and soul make the Man  
Man and Woman create new life  
The balance of Elements  
Lets the Universe be a Unity

Ruins are the new foundations  
Death purifies the Earth for the next generations  
The Universe is far from the moral judgements  
For the Universe is a Unity
