Where do the dreams of babies go
'cause you know they're all so good
And they're also gone so fast

Keep all your guns at home
Help keep your momma safe
'cause you know she's pretty good too

Where is the night so warm and so strange
That no one is afraid of themselves
Pick, pick up, dig, dig out those weeds
Out of your happy-go-lucky fields of such polluted
thinking

Where do the rockets find planets x3
Where are the dreams of the babies going
'cause you know they're all going fast
Take, take as much as you can
'cause you know it's going so fast
You know it's so good.

Where are the many mountains so brave
That they do not explode over everyone
Pick, pick up, dig, dig out those weeds
Out of your happy-go-lucky field
Of such polluted thinking

Where do the rockets find planets
Where do the rockets find planets

Keep your guns at home
Keep your guns at home
Help keep your momma safe
You know she's all good too
She's pretty good

Where are the dreams of babies going
'cause you know they're all good
