Well, if you're feelin' low, take it slow
Baby, get your head screwed on
I know he's left, but don't be depressed
Baby, let your favorite daddy see you through

Oh, baby you'll be out of your mind
Baby, you'll be out of your mind
Baby, you'll be out of your mind

You know you're nice, you're sugar and spice
And I know what you're going through
But if you're hot hot, and even if you're not
Baby, let your favorite daddy see you through

Oh, baby you'll be out of your mind
Baby, you'll be out of your mind
Baby, you'll be out of your mind

You were so neat, ever so sweet
And overnight you've seemed to change
Since you kissed your psychiatrist
Baby, you've never been the same

Well, if you're feelin' low, take it slow
Baby, get your head screwed on
I know he's left, but don't be depressed
Baby, let your favorite daddy see you through

Oh, baby you'll be out of your mind
Baby, you'll be out of your mind
Baby, you'll be out of your mind
