Baby, I've never had a single thing in my life  
That I could call my own  
There you were, holding a love so true  
Now I've got a home, now I've got a home

I found a love, hidden in a backstreet  
I found a love, baby  
I found a love, hidden in a backstreet  
Hidden away from the world, baby

Baby, you really make me feel like a king  
A king without a crown  
But darlin', promise me one little thing  
That you won't let me down, you won't let me down

I found a love, hidden in a backstreet  
I found a love, baby  
I found a love, hidden in a backstreet  
Hidden away from the world, baby

Don't ever tell me lies baby  
Don't take it for a ride baby  
Just stay here by my side baby  
We won't ever stop

I found a love, hidden in a backstreet  
I found a love, baby  
I found a love, hidden in a backstreet  
Hidden away from the world, baby

I found a love, hidden in a backstreet  
I found a love, baby
