"Lady"

I was cold and so alone, so I couldn't help but moan
When the life that I had known started crumbling
Then this crazy world that I live in, started giving more
to me

Oh, I've never known a lady like yourself
Oh, I've never known a lady

I was searching all the world, looking for a girl
Then a lady made an earl of this poor boy
Now this crazy world that I live in, started giving more
to me

Oh, I've never known a lady like yourself
Oh, I've never known a lady

Now this crazy world that I live in
Started giving more to me

Oh, I've never known a lady like yourself
Oh, I've never known a lady
Oh, I've never known a lady
