Oh, the trees grow higher than the mountain
In the land of free love and goodbye
The rivers ever growin' the fish is flowin'
And the love lives in the sky

In the night flies a team of white horses
And they glimmer clean in your eye
The bird of dawn is bringin' the simpleness of singin'
And the song lives in the sky

The trees grow higher than the mountain
In the land of free love and goodbye
The rivers ever growin' the fish is flowin'
And the love lives in the sky
