As she drives lay to sleep I hope you choke in your
dream

There is no turning back
Can you see what you have done?
I seek vengeance
For your blood
I polt vengeance for blood X2

I see broken dreams threw shards of glass X4
I'll make you beg
For what you've taken from me
I hope burn alive for all your
Fucking lies

I can not be accounted for
The way that you I deal with lies
My thought of your forgiveness is you buried alive
All your hopes and dreams broken shattered by glass
X2
Shattered by glass
