5 star superstar

checked out like an hour glass
Take on board a razorblade
Live life like you love it
When I fell in love with cocaine
Take each day by the limit
living my own fucking law
hairspray and a trimming
we've all seen these lights before

Chorus:

Honey im a 5 star superstar
A beuticians wet dream
A lovely motherfucker
Make you fucking scream

Im a 5star superstar

Hell bent on a bottle of jack
Passed out like im on a season pass
Got everyting and were still hating it
You got nothing but your still loving
Id still love to pull your hair
Or even feel better you feel down stairs
Couldn't live life on an empty glass
I took on board myself a season pass

Chorus:
