

## Catchpole "Close My Window"

Visit "[Close My Window](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I keep hearin' my name but I turn away  
Cause I know it comes from you  
And everyday that I try to blank  
It's the one think I can't proove  
You know that I love you more  
Than every fish in the sea  
So send some bright stars  
And shine them down  
Down on me lord

### CHORUS:

You know that I, you know that I  
I need you more  
You know that we have something  
When you get down to the core  
But I just can't keep waking up  
Wondering if I'm good enough

I think I'll close my window tonight

Everyone says go with your heart  
Never with your mind  
But every time I choose my heart  
The one thing that I find  
Is an ocean full of pain  
Always loss and never gain  
How do I put up with this sadness?  
I can't take much more, no.  
But

### CHORUS

You know that I love you more  
Then every fish in the sea  
Send some bright stars and shine them down  
Down on me lord

### CHORUS
