Oh what this could be
And all the days caught in between
And what a sight that we could see
And all these things from A to Z

Oh look at this and tell me
And the lovely things you see and
Oh what dreams to wish for now
And look up high and up above
Oh this will be a time to see
Of all you want sincerely
Of dogs and toys and bees with knees

Are what you need so terribly

Oh what a lovely day
And all the days caught in between
What a lovely time to tell
Of what you see and all above
Oh this can be the wish you dream
Of all you want from A to Z
And Oh and you can be with me
With books and sticks and 1, 2, 3's
And all we dream and wish
'til this 'til the end
