Here we be and none too soon
Sweetheart thoughts come to me
They're very pretty very very pretty
Oh now here you be run into me
Dizzy spells all around it's very
Pretty very very pretty
Oh come look

Here we be and none too soon
Roundin' up my thoughts for you
They're very pretty very very pretty
Oh now rub your eyes good and hard
Pink and gold is what you'll see
I'm very dizzy very very dizzy

Oh come look

Dizzy you and dizzy you
Oh in a delirium
Oh come back come back to me
Oh come back come back to me

Sweet askew run into you
I'm way too weak to catch my breath
I'm very dizzy very very dizzy
Here come quick and then you'll see
All these things surrounding me
They're very pretty very very pretty
Oh come look
