There's the sun, the moon, and harry
harry makes me smile
there is sad and there is happy
it will be happy this time

there's tomorrow now and harry
it's a brand new song
harry is my love
harry is the one

there is come, and go and harry
he's my peace of mind
there's the right and there's the wrong way
harry does it right

there's tomorrow now and harry
it's a brand new song

harry is my love
harry is the one

he is the noontime
the sunshine of my day
he is my pick me up
and harry plans to stay here with me

there's the sun, the moon, and harry
harry makes me smile
there is sad and there is happy
it will be happy this time

there's tomorrow now and harry
it's a brand new song
harry is my love
harry is the one
