Fuel of fathers' sweat
Sweet like baby's breath
Strong like superman
Stinking up the streets I am
The feeling does me in
But here I go again

I love gasoline
I love gasoline

Smooth like summer silk
Sweet like mother's milk
Warm like tenderness
Perfume sprayed around my neck
I know it makes no sense
But here I go again

I love gasoline
I love gasoline

Here comes the rush again
Let me down easy

Warm like summer breeze
Flowing round your city
Come on down with me

I love gasoline
I love gasoline
