When it gets me back again  
I'll be ready to begin  
Ready to stand up to it  
And it gets me back again

On my word I could never see it coming  
'Cause I never could keep up on anyone  
You said you could but you wouldn't  
Tell me what to do and I never could see through you  
Even sometimes

On better days you and I  
Will figure this out  
Push it down look behind

When it gets me back again  
I'll be ready to begin  
Ready to stand up to it  
And it gets me back again

On my word I could never see it coming  
'Cause I never could keep up on anyone  
You said you could but you wouldn't  
Tell me what to do and I never could see through you  
Even sometimes

On my word I could never see it coming  
'Cause I never could keep up on anyone  
You said you could but you wouldn't  
Tell me what to do and I never could see through you  
Even sometimes

On my word I could never see it coming  
'Cause I never could keep up on anyone  
You said you could but you wouldn't  
Tell me what to do and I never could see through you  
Even sometimes
