You're an alcoholic
You're an alcoholic red nose reindeer like Rudolph
I'm here to tear the roof off
And if you want to take it to the guns, I'ma shoot off

Your head before you reach for the pistol
And when the bartender turns around I'ma reach for
the Cristal
You not ready for this style, I'm straight Psycho wit it
And I bet you in love with, yeah Psycho hit it

A long time ago, I'ma keep doing my thizzle
Till it's time to go, but for now it's time to blow
Good as me in the club popping bubbly
I can't complain life is lovely
Either you hate me or you love me

Fans wanna know when the Nuts is gonna come next
It doesn't matter competition is no contest
I don't mean to brag, I'm just being honest
Where my dogs at smoking up at the college?

Clap your hands to the beat and get your bounce on
Put your drinks up, if your blazing get you ounce on
Girl I'd house you, but this ain't no house song
And no kissing, I dunno what you had your mouth on

Find us in the back of the club
Squad deep and we all got snuff
Hold the fort down, we ain't gonna budge
Bother nobody less you fucking with us

You can bring it to us however you want
Shake your, booty, booty I'm ready to fuck
Especially the shorty with that big butt
Shake your booty, booty, I'm ready to fuck

Look, don't approach me in a physical manner
'Cause the cannon I'm holding ain't a digital camera

And I don't care less about women and glamor
Or which one of you rappers is lifting his hammer

I'ma get loose like a pair of pajamas
I speak through those switches, spit like Obama
Trying to get rich without guns and the scanner
That's A to the K with a fucking bandanna

Seize your empire, believe in no lies
Squeeze the deserties like Jesus inside her
Spit like the shit on my teeth is barbwire
Make your girl suck cock till her knees are on fire

That's it though, no more games
This one right here is gonna blow your brains
If you in the club you better hold your chain
Cause I'm bugging and I just might stomp your frame

Find us in the back of the club
Squad deep and we all got snuff
Hold the fort down, we ain't gonna budge
Bother nobody less you fucking with us

You can bring it to us however you want
Shake your booty, booty, I'm ready to fuck
Especially the shorty with that big butt
Shake your booty, booty, I'm ready to fuck

Find us in the back of the club
Squad deep and we all got snuffs
Hold the fort down, we ain't gonna budge
Bother nobody less you fucking with us

You can bring it to us however you want
Shake your booty, booty, I'm ready to fuck
Especially the shorty with that big butt
Shake your booty, booty, I'm ready to fuck
