I'm gonna change him
Just you wait and see
I'm gonna make him
Fall in love with me

I, I understand him
He's not really bad
I'm gonna change him
With a love he's never had

He cuts out of school
He can't make the scene
He's got lots of girls
But treats them all mean

When we have a date
He's never on time
He acts like a big wheel
But ain't got a dime

But I'm gonna change him
Just you wait and see
I'm gonna make him
Fall in love with me
