Randolph: Girl there's no one that gets me the way that  
you do  
I just can't explain it there's something bout you  
That gets my emotions all tangled inside  
No matter how I try  
I just cannot hide  
What I feel when you simply walk past my way  
When you smile it shines bright and it makes my day  
I sit here all alone thinking about you day and night  
Girl to me it feels so right

Chorus: (Randolph)  
I just want you close  
Coz you make me smile  
I just cannot get you off my mind  
With each kiss  
You blow me away  
And without you I think I'd go crazy  
For your love I would do anything  
Coz to me... you are my everything

Cathy: Boy there's no one that gets me the way that you  
could  
I just can't explain it there's something you do  
The stars shine much brighter when I'm with you  
And when you kiss my lips  
I feel so brand new  
Boy you always know when I'm feeling down  
And you know how to turn my frown upside down  
All the cute things you do simply tickle my heart  
Boy we'll never be apart

Chorus: (Cathy)  
I just want you close  
Coz you make me smile  
I just cannot get you off my mind  
With each kiss  
You blow me away  
And without you I think I'd go crazy  
For your love I would do anything  
Coz to me... you are my everything

Bridge:

Cathy: All my dreams have come true when you walked  
in my life  
It seems so unreal I'm so glad that you're mine

Randolph: I'm so glad to be yours it's too good to be  
true  
But I know this is real and that I love you

Chorus:  
I just want you close  
Coz you make me smile  
I just cannot get you off my mind  
With each kiss  
You blow me away  
And without you I think I'd go crazy  
For your love I would do anything  
Coz to me...  
Coz to me.....  
Coz to me.....  
You are "my everything"..
