"A-Way"

Visit "[A-Way](#)" on MotoLyrics.com

Hanging round your house and staying up all night |
What I lack you got it all behind your doors right |
You need time I need you right by my side |
But I stare too long and get you wrong if I don't hide |

Each time I fall down |
You need to come around |
So fuck our low downs |

We'll find a way we won't get nowhere |
We won't get lost cause we'll get somewhere |
And I don't mind I really don't care |
We'll find a way when we will get there |

What I need - someday I'll write a book about it |
Until that day I follow you around and I won't quit |
I won't go away I won't give it up I won't stop |
But I stare too long and get you wrong if I don't drop |

Each time I fall down |
You need to come around |
So fuck our low downs |

We'll find a way we won't get nowhere |
We won't get lost cause we'll get somewhere |
And I don't mind I really don't care |
We'll find a way when we will get there. |

I got a whole lot of nothing |
I got a whole lot of nothing |
I got a whole lot of nothing |

We'll find a way we won't get nowhere |
We won't get lost cause we'll get somewhere |
And I don't mind I really don't care |
We'll find a way when we will get there. |

I got a whole lot of nothing |
