"Above Us"

Visit "[Above Us](#)" on MotoLyrics.com

The time has come for everyone
I got you right where you belong
So if you're ready let me know boy
You've got a right, you've got a need
You've got a fuck but not to keep

So now it's time to testify, girl
What we own is what we found
And you've got to get up
Before you get down alone

'Cause where you go is what you get
And what you get is where you go
And where you go is what you hope for

So I'm trying to keep a view
Of all the chances that we blew
And you've got to get up
Before you get down alone
What we get is what we want right above us
