You showed me, colours I'd never seen,
There was so much we used to share
You took me places, that I never been
I close my eyes again and think of you
I hear your voice with every passing day,
I see my sister's laughing face,
I think about the things we used to say
I close my eyes again and think of you...
I close my eyes again and think of you...
I see myself in you, in all those little things you do,
Took you in bed at night,
Knowin' that everything's allright,
Time slips away so fast,
Sunny skies get overcast
I know ... I know
I Know ... I know
I can't be there beside you
I can't be there to guide you
I can't be there to hold you know
Close my eyes and think of you
Yeah yeah, yeah yeah (3x)
Close my eyes and think of you...
