When everything in you is collapsing
I'm feeling well
And when you lose the game
You know you're in hell

And if you need me most
I'll be there and hold your hand
Hold your hands with fire gloves

How I used to say anyway
I don't mind, I don't mind you stay

Go down, everybody knows you're messing around
Go down, everybody knows you're getting around
Go down, look behind my face and you will see
The ordinary me

When every thing in you is sliding away like a frame
There ain't no sin without a shame
And if you cry my name, I'll be there and help you
To do the step over the edge, step over the edge

How I used to say anyway
I don't mind and I don't mind you stay

Go down, everybody knows you're messing around
Go down, everybody knows you're getting around
Go down, look behind my face and you will see
Go down, the ordinary me
Go down, 'cause I'm loyal to none

Go down, everybody knows you're messing around
Go down, everybody knows you're getting around
Go down, look behind my face and you will see
Go down, the ordinary me

Go down, go down, I said down
Don't you stand [Incomprehensible]
