"Sharp, Cool & Collected"

I light the stars
The city calls
I guarantee my heart
I get along
I can't go wrong
And now I'm above it all

Cause when it comes to love
I stay sharp, cool and collected
If the whole world goes kaputt
I can take it
I get all I ever wanted
Stay sharp, cool and collected

I look for brains
You got the skills
Your walk is mean
You fit the bill
I work like mad
To shuk an jive
No matter how you spin this things

Cause when it comes to love
I stay sharp, cool and collected
If the whole world goes kaputt
I can take it
I get all I ever wanted
Cause when it comes to love
I stay sharp, cool and collected
If the whole world goes kaputt
I can take it
I get all I ever wanted
I stay sharp, cool and collected
