### **"Summer"**

Visit "[Summer](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We burned the summer down  
There's dust when we're around  
It's done this afternoon  
We came right back from moon  
We paint the town red  
To see what we will get  
Don't care about the past  
Today we'll make it last  
We came around  
Breaking up the silence that we've found  
And I'm alive I'm alive  
There ain't no place to stay  
So watch our taillights fade  
The way it's said and done  
It leads to where I'm bound  
We came around  
Breaking up the silence that we've found  
And I'm alive I'm alive  
We burned the summer down  
There's dust when we're around  
It's done this afternoon  
We came right back from moon  
We came around  
Breaking up the silence that we've found  
And I'm alive I'm alive...
