"This One"

Visit "[This One](#)" on MotoLyrics.com

Every day's the same
Got to play the game
Got to smile if you don't want to
Boring walks to walk
Boring talks to talk
And you wish it would not be true

If you're devastated
Put it all in this one
If your world is jaded
Put it all in this one
Every night in vain
Every friend's the same

Just a lie and a wasted tear
Scared of coming home
'Cause you're all alone
Will I make my way out of here?

If you're world is getting small
Without all the things
You thought it's all about
If the pressure of a brand new day
With the sunlight starts to fade away
