"Why You Not"

Visit "[Why You Not](#)" on MotoLyrics.com

Fucking religion is a bloody trail,
a promise which will fail,
it's the way of torture the way of pain,
desease in your brain
they say the churchs poor but she's rich,
more rich than you know
for money they protect your soul,
for a heaven you don't know
why you don't think about what you believe in?
why you do submit youself?
why you don't think about what you can trust?
why you undermine yourself?
why you not - destroy religion in your head?
there is - a life before death!
destroy religion in your head!
there is - a life before death!
freedom of confidience is only a word,
why it doesnt't't't count for all?
why they abuse the faith of the people for ignorance
about it all?
war - in the name of religion
wrong gods - absurd positions
forbidden - to protect yourself and aids they say is a
punishment of god!
why you don't think about what you believe in?
why you do submit yourself?
why you don't think about what you can trust?
why you undermine yourself?
why you not - destroy religion in your head?
there is - a life before death!
destroy religion in your head!
there is - a life before death
