"Another Minute"

Visit "[Another Minute](#)" on MotoLyrics.com

Let's not wait another minute
Would you lie to me
And tell me that it isn't true
Take the light from me
With the special little things you do
Once again I feel it's time we get
Down and kneel time to pray
Once more that you'll give me
What I came here for
Let's not wait another minute
This is love with nothing in it
Let me come and kneel before you
It's time to be what we want to be
Could you talk to me
And tell me what I want to hear
Deep inside of me
Is a special little thing called fear
Take me in your arms don't tell me
It's a false alarm
Give me just once more
The act that both of us came here for
Let's not wait another minute
This is love with nothing in it
Let me come and kneel before you
It's time to be what we want to be
