It's over now

I guess it's over now. i think
We've seen the end. when our
Common dream. faltered in the
Between. though i've tried so
Hard to make it real. it doesn't
Matter now. i guess it never
Did. and it's alright with me.
And it's alright if that's how
You want it to be. i've learned
Through weakness and
Through the web of your lies.
That everyday i levi. another
Piece of me dies. and in the
Black and white. i found a
Need to move on. to find a
Road of gold. a throne to live
Upon. and it's alright with me.
And it's alright if that's how
You want it to be. if there's a
Reason for the pain then let me
Know. if i'm the reason for
Your pain then let me go. and
It's alright with me. and it's
Alright if that's how you want
It to be.
