"Mars"

Visit "[Mars](#)" on MotoLyrics.com

How long will you run away
From the words that you need to say
It's getting so much further everyday
You're swimming upstream the rivers of lead
Picking at wounds where the poison bled
But how much further will you go
'Cause you're tongue tied and you're soul cries on the
inside
How far will you go
Been living a lie with your Hollywood life
To take your disease to the highest high
But how much further can you go
You're caught in the path of industrial wheels
The crush of the joke, yeah I know how it feels
I think it's best to let it go
Cause you're tongue tied and you're soul cries on the
inside
How far will you go
