Wait,
Before you leave I've got something to say
sigh so listen to me

I know you wanted to hate me
When you found out that I lied, yeah
I wanna spend eternity
But you say you've been decieved
Now you say you wanna leave
But I say...

Hell no, hell no - I won't let you leave me this time, no
(no, whoa)
Hell no, hell no - Don't act like you never lied to me
(don't act like you never lied to me)
Hell no, hell no - My actions are not justified
(are not justified)
Remember the many nights I cried
So hell no you can't leave me this time

Now under the circumstances
Do you remember what you did to me (to me)
When I found that other hooches pictures
Had 'em hid inside a Dru Hill CD...

I'm not trying to go back and forth
I'm just trying to let you know
I've fogiven you a hundred times, so
Baby, I'm not gonna let you go, so

Hell no, hell no - (hell no, hell no) I won't let you leave
me this time, no
(don't leave me)
Hell no, hell no - Don't act like you never lied to me
(don't act like you never lied)
Hell no, hell no - (oh no) My actions are not justified
(I'm so sorry baby)
Remember the many nights I cried
Hell no you can't leave
This time (this time)

Don't leave me now
I'll be here if you stay
(I'll stay right here)

Oh, no

Hell no, hell no - I won't let you leave me this time, no
(don't leave me)
Hell no, hell no - Don't act like you never lied to me
(oh don't you go away)
Hell no, hell no - My actions are not justified
(I'm so sorry, I'm so sorry baby)
I forgave you baby when you left
Hell no you can't leave me this time

Hell no, hell no - I won't let you leave me this time, no
(what do you think, do you think I can be all alone?)
Hell no, hell no - Don't act like you never lied to me
(but you lied to me before, yes you have)
Hell no, hell no - My actions are not justified
(can you forgive me, can you forgive me baby?)
(Hell no) Hell no you can't leave me this time

Don't leave me, no
Stay right here
