I believe in my baby
Our love will always be (I believe in my baby)
I believe in my baby (ah yeah)
Our love will always be, yeah yeah yeah (say it, say it,
say it again)

Now here come to me
Just when I thought
That no one had no kind of love for me
My achin heart was restless
Hopelessly decieved
You came along and made it
Easy to believe
In love again

I believe in my baby (ah yeah)
Our love will always be (say it again)
I believe in my baby

Arms of an angel
Shield me with protection
And you show me that you care
I say it loud and proud
That I ain't going nowhere
You made my house a home
And now I do believe
In love again

I believe in my baby
Our love will always be
I believe in my baby (I do)
Our love will always be, yeah yeah yeah

Secrets all unfold
There's nothing left unspoken
From the heart you and I know
Everything about each other
We just let it show
To be or not to be
Thats what you said to me
We're gonna get it started now

We're living out our fantasy...
Fantasy (repeat to fade)

Cos I believe
I believe in my baby (my baby)
Our love will always be (say it, say it, say it again)
I believe in my baby (I do)
Our love will always be, yeah yeah yeah (I believe in my baby)

Ah yeah
Say it, say it, say it again

I believe in my baby
Our love will always be (I believe in my baby)
I believe in my baby (ah yeah)
Our love will always be, yeah yeah yeah (say it, say it, say it again)

Cos I believe
I believe in my baby (my baby)
Our love will always be (say it, say it, say it again)
I believe in my baby (I do)
Our love will always be, yeah yeah yeah

I believe in my baby
Our love will always be
I believe in my baby
Our love will always be, yeah yeah yeah
