I've got this feeling baby
Inside it's driving me crazy
I just don't know what to do

Why don't you get this started
Body language so inviting
There ain't nothing that we won't do

Oh... sophisticated lady [harmony]
Come and get my lovin'
Never get enough from the push and shovin'
Oh... sophisticated lady [harmony]
Changed my name from the B to the G
So my hubby can get with me

I know that we can make it
Never ever gonna get it on I'm freakin'
That style don't suite me or you

There are so many reasons
Why our love is so in season
Thoughts like this keep me straight with you

Oh... sophisticated lady [harmony]
Come and get my lovin'
Never get enough from the push and shovin'
Oh... sophisticated lady [harmony]
Changed my name from the B to the G
So my hubby can get with me

Oh... sophisticated lady [harmony]
[Have we got sound?]
Go Dexter, go Dexter, Dexter
[Shit, my bit now?]

Hey yo Mel you know you ride this beat so well
Late at night lacing tracks past the midnight bell
But we don't sweat it though cause the three of us are
strong
With the energy you give babe we can't go wrong

Paris was the city in the heat of the summer time
When J took the heart of a friend of mine (go Dexter)
Then you gave rings and the vows were done
And you'll always be together 'cause 2 become 1

Oh... sophisticated lady [harmony]
Come and get my lovin'
Never get enough from the push and shovin'
Oh... sophisticated lady [harmony]
Changed my name from the B to the G
So my hubby can get with me

Oh... sophisticated lady [harmony]
Come and get my lovin'
Never get enough from the push and shovin'
Oh... sophisticated lady [harmony]
Changed my name from the B to the G
So my hubby can get with me
