Step inside and steal some time  
Hide and seek is on your mind  
Think you'll find your destiny  
Shallow grave is all you'll see

There's raindrops around  
All darkness, no sound  
Your lips wet and fine I'll let you in my mind  
A kiss for the night  
The black widow's now inside  
I now know your dreams ain't what they seem

Better watch out when you close your eyes  
Cos I can see your lies  
Little lady try to sleep tonight  
The devils got your eyes

Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see

There's no phone talk today  
Baby you're out to play  
Hungry for the next to play your game

Better watch out when you close your eyes  
Cos I can see your lies  
Little lady try to sleep tonight  
The devils got your eyes

Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time  
Hide and seek is on your mind (hide and seek is on

your mind)  
Think you'll find your destiny  
Shallow grave is all you'll see

(One day you'll find)  
(I'll come for your mind)

Better watch out when you close your eyes  
Cos I can see your lies  
Little lady try to sleep tonight  
The devils got your eyes

Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see

Step inside and steal some time (steal some time)  
Hide and seek is on your mind (hide and seek is on  
your mind)  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see  
Step inside and steal some time (steal some time)  
Hide and seek is on your mind (hide and seek is on  
your mind)  
Think you'll find your destiny (destiny)  
Shallow grave is all you'll see
