### CHORUS:

I don't know what to do  
Cause I'm still so into you  
I know we said we were through  
Don't know what to do  
I don't know what to do  
Cause I'm still so into you  
And I know you feel it too  
Don't know what to do

Said our goodbyes  
We both agreed to just be friends  
But there's something inside  
That makes me think again

### CHORUS

Pain's gone away  
I can finally get it off my mind  
But the minute I see your face  
My emotions take over  
Every part of me says one more time

### CHORUS

### BRIDGE:

I wish you would go far away  
So I can get you out of my mind  
If I continue to see you everyday  
I'll want you by my side
