CHORUS:

Why'd you think that I
Would sit here and wait in vain
Baby I'm movin' on
'Cause what I want from love
Is the pleasure and not the pain
Baby I'm movin' on

Didn't i hear you say
That your love would never change
But I know that it's over
But when the story ends
Why should we both pretend
When we know there's another

BRIDGE:

Tell me how, tell me who
Just tell me the truth
Tell me why did you lie
I can see it in your eyes
Tell me where, tell me when
Cause it never should have been at all
But it looks like it's over

CHORUS

I remember when
When I was there for you
Where were you last winter?
Cause the thoughts run through my mind
Of all the times you lied
And that's why it's over

BRIDGE

How could you do this to me
Cause now I gotta leave
Why did you tell me those lies
And now I gotta say bye bye
Bye bye, baby yeah
