I guess you say you're in my head
Cause you're always on my mind (24/7)
I like to think of how we feel
And how we take our time

BRIDGE:

Baby you make me feel so real
So much more love than I had before
Don't think I can take much more
If you want me to stay with you
Whenever you need, whenever you want me
Baby I wanna be

CHORUS:

Baby don't you know
That I'm sprung on you
I can never find someone
To groove me like you do
Even if I searched the whole world
I'd still come back to you
I can never find someone
To groove me like you do

When you are near, you make my heart sing
You help me see the joy in everything
I never fear, no, when you are by my side
When you hold me I'm in paradise
