Of all the extras
your're my favourite standing
when no one else is around
there's always you

And I don't care
that you're older than my mother
cause I don't wanna hangout
with those teenage freaks

Your're always my second choice
easily amused my friend

You're not that nice
but i'm not really bothered
When i feel likely
I just look at you
I just want somebody
I can presto
When i have no better things to do

Yor're always my second choice
easily amused my friend

Of all the extras
your're my favourite standing
when no one else is around
there's always you

And I don't care
that you're older than my mother
cause I don't wanna hangout
with those teenage freaks

You're always my second choice
easily amused my friend
